Message

I am happy to know that Association of Kerala Medical Graduates [AKMG] intends to publish a **Souvenir** to commemorate the 45th AKMG Convention held in San Diego, California.

It is commendable that AKMG, the alumni association of Physicians of Kerala origin in North America and Canada is actively involved in educational, cultural and humanitarian activities ever since its inception.

I convey my hearty greetings to the members of the Association and wish the convention as well as the publication all success.
